DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!

☞ A Cure for Life Secured. ☜

For all cases of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr. J. Upham, a distinguished Physician of New York city, is the only really successful remedy for this dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this, it is an INTERNAL REMEDY—not an external application, and will [illegible] cure of PILES, either bleeding or blind, internal or external, and probably the only thorough [illegible] There is no mistake about it. It is a positive cure—speedy and permanent. It is also a convenient, elegant, easy to take, and improves the general health in a remarkable manner.

Each box contains 16 doses, at 6¼ cents per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger. All external applications are [illegible] and disagreeable, inconvenient and offensive, and [illegible] from the [illegible] This Medicine attacks the disease at its source, and REMOVING THE CAUSE renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine of [illegible] in all diseases [illegible] particularly for [illegible] and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever introduced.

IMPURITIES OF THE BLOOD.

For all impurities of the Blood, arising from the imprudent use of [illegible] or other [illegible] Scrofulous Affections, in all cases where the blood is impure [illegible] and dangerous, DR. UPHAM'S ELECTUARY is a truly invaluable [illegible]

TO MARRIED LADIES.

Married Ladies are subject to [illegible] Piles, or [illegible] inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most useful Laxative that can possibly be used at [illegible] ACT [illegible] TION [illegible] and a more [illegible]

CURE FOR LIFE GUARANTEED.

The Electuary contains NO MINERAL, No Aloes, Colocynth, Gamboge, or other powerful and irritating purgatives. No fear of taking cold while under its influence; no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving [illegible] information respecting this Medicine, may be had of Agents [illegible]

DR. S. O. RICHARDSON'S
CONCENTRATED
Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre-eminence over all others now in use for the diseases which they profess to cure.

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful, adult and declining life.

The extensive sympathies which subsist between these and every other part of the living body [illegible] the foundation of Nervous Diseases of all kinds—Irregular Appetite, Languor, Drowsiness, Wandering Pains, Headache, Lowness of Spirits, &c.

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles, Fever, Inflammatory Humors, Coughs, and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished characters of these Bitters is most striking; their operation being more or less powerful, according to the violence of the disease. When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels, occasioned by costiveness or a slight bilious difficulty, and the like, where nature needs assistance to prevent more serious consequences, they will be scarcely felt.

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified. It is accomplished they act on the system in conjunction with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

DR. WARREN'S
SARSAPARILLA, TOMATO AND WILD CHERRY
PHYSICAL BITTERS,
At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy and effectual remedy for Scrofulous, Mercurial and Cutaneous Diseases; Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and Running Sores, Swelling of the Limbs, Pains in the Bones, Tumors in the throat, Rheumatic affections, Salt Rheum, Erysipelas, [illegible] Eruptions on the face or body, Cancerous Sores, King's Evil, Chronic Catarrh, Languor, Sick Headache, Dizziness, Sallow complexion, and all those disquiets which arise from the abuse of Mercury, or from an impure state of the blood, no matter how acquired.

The above is here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendencies of the system is *speedy and permanent.*

As a Spring Medicine for purifying the blood—strengthening the stomach and body, and the king of [illegible] the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled.

The above Medicine, Syrup of Tar and Wood Naptha.—It is a maxim which common sense will suggest that he ought to have recourse to proper medicines for the removal of his ailments. This may be done either by consulting a respectable physician or by taking a preparation which has been properly tested, and met with the universal approval of the public. This plan, however, is seldom adopted, owing to the specious advertisements of villanous quacks, who unblushingly assert that one particular medicine will cure every disease that flesh is heir to, from the toothache to the gout. These wicked fabrications are read by a majority of the people who swallow the bait; the result of which is, the public are first plundered, then half if not quite poisoned, and the rogue's fortune is made. *Quod erat demonstrandum.* How much better it would be if people would inquire into the merits of a particular medicine before purchasing. It would remove all doubts, and secure the purchaser from imposition. We make the above remarks to direct the attention of our readers to Thompson's Compound Syrup of Tar and Wood Naptha, a preparation of *acknowledged merit* in the relief of consumption, asthmatic affections and diseases of the lungs and throat. This medicine we have used with the most triumphant results, and many cases of affections of the lungs have come under our notice which were speedily cured by a few bottles of *Thompson's Compound Syrup of Tar and Wood Naptha.* Be particular and get the genuine. It is prepared only by Angney & Dickson, at the N. E. corner of Fifth and Spruce streets.

The above medicine is for sale in this city by Hall & Young, agents, 4 Smith's Block.

BOMMER'S METHOD,
At Wholesale Prices.

NEW improvements in Agriculture have excited so much interest as Bommer's Method of making Manure. Hundreds of testimonials from farmers who have adopted this system, prove beyond all controversy, that no one need ever be destitute of that supply of manure his wants require. An individual right with one copy of the Method is $4, and no economical man should hesitate to pay so trifling a sum when he is made sensible it will enable him to double the products of his farm with comparatively small effort. Town or County rights are estimated according to their agricultural importance. An individual or a company desirous of purchasing one or more Towns or a County not disposed of are respectfully invited to make an early application. An individual right with a copy of the Method will be sent to any section of the State free of postage.

July 2 W. A. BLAKE,
No. 3 Broad St.

To the Honorable Justices of the District Court for the Eastern District, begun and holden at Bangor, within and for the County of Penobscot, January Term, A. D. 1847.

THE Petition of Page Eaton of Benniker in the County of Merrimack and State of New Hampshire, shows that he has heretofore been duly appointed—and approved by the legal authorities in New Hampshire and in Maine, guardian of Elizabeth B. Cram, Lucretia B. Cram, James F. Cram and Thomas E. Cram, minors and children and heirs of Jacob Cram, late of Lydia K. Cram, their Father and Mother, late of Dexter in the County of Penobscot, Maine; that he and his said wards do not reside within this State. He would further represent that his said wards are seized in fee simple of the following parcels of land in said Dixmont, viz: One undivided half of a certain tract or piece of land in said Dixmont, beginning at the east side of the town road at a stake and stones leading from Dixmont Mills to Plymouth, thence East 30° North 14 rods to a stake and stones, thence South 10° East five rods 17 links to a stake and stones, thence West 10° South 14 rods to the East side of the road aforesaid, to a stake and stones, thence northwardly by the east side of said road to the first bound.

Also one half of the turning Mill on the stream at or near the south-west corner of the before described premises, and also one half of the Mill privilege and all the privileges granted to Robert Bradford by William Stevens by Deed dated July 16 183[illegible].

Also one other parcel of land described as follows: beginning at a stake and stones on the west side of the Road leading from Dixmont Mills (so called) to Dixmont corner and at land belonging to Stephen W. Hussey, thence South 30° East by the west line of said road four rods to a stake and stones, thence West 30° south 10 rods to a stake and stones, thence in a straight line to said Hussey's southwest corner near the Mill pond, thence East thirty degrees north by said Hussey's south line 13 rods to the first bound, containing fifty-five square rods, and that the two above described parcels being the same conveyed by Robert Bradford to said Lydia K. Cram by deeds recorded in Penobscot Registry, book 33, pages 310, and 311; reference thereto being had.

And your petitioner would further represent that it would be for the benefit of his said wards that the same should be disposed of and the proceeds thereof put out at interest, and he would also represent that there is not sufficient personal property and estate belonging to said wards for their support. Wherefore he prays that he may be licensed to sell said real estate at public or private sale, according to law, for the benefit of his said wards, observing all the directions of the law in the premises.

SATURDAY, SEPT. 25, 1847.

☞ The lengthened shadows of the day remind us of the time for the meetings of the Lyceum, and the Mechanics' Association for public lectures, and readings, and debates—the many entertainments of the many and the glorious advantages of the young, and of all who are interested in self culture.

The managers of the Lyceum have secured an array of talented lecturers for the season, and the Mechanics' Association will also have a number of highly interesting lectures, besides their usual readings and debates.

There is a young men's association for literary and oratorical pursuits which is in progress. These will afford great advantages and pleasures to our people.

It ought to be the pride and the earnest effort of the people in every village, and indeed in every town in the State to maintain a social and educational institution, like a Lyceum. This can be done. The people of East Glenburn do it, and it is a great pleasure and a great benefit to them. Such an institution would have a similar effect elsewhere. Its establishment in every town should engage the attention of every minister, and doctor, and teacher, and, with their influence it can be made popular with the great mass of the people. But if they neglect their duty in the premises, we trust the young men will engage in the work and make it successful. The great difference in men and the only difference worth considering is that resulting from education.

Think of this young men and apply yourselves to the education of yourselves. You can do it—all of you.

The Agricultural Fair.

We wish every person in Penobscot county to bear in mind that the Agricultural Fair will take place at Levant village, on Wednesday next, the twenty ninth inst. It is expected that the farmers generally will give a good exhibition of their various products. It will be a grand time for the best butter makers of the county to be present with specimens, as several persons will be present who wish to make contracts for all that the best makers can turn out for the year. One man we know wishes to contract for three tons, for his own use, and is willing to receive it as it is made and pay the highest price, but he wants the best article.

The company will undoubtedly be large, and it will afford a good occasion for manufacturers of all kinds to exhibit specimens of their work in wood, iron, leather, tin, copper, &c.

We hear it whispered that the city and country gents are negotiating for a general gathering for the purpose of closing the day as they do in Worcester County in the heart of the Old Bay State, by a grand ball.

The inducements will be sufficient we should think to draw out a splendid show, and a great company.

Election of Board of Education.

We are requested to remind the Superintending School Committees of the several towns and plantations in the county of Penobscot, that, by the provisions of "an act to establish a Board of Education" approved July 27, 1846, they are required to assemble at Bangor on Friday the 15th day of October next, at eleven o'clock, A. M. The second section of the act is as follows:

"The superintending school committees of the several towns and the clerks of the several plantations in each county, are hereby required to assemble, annually, at the times and places hereinafter designated, and when so assembled in each county, to choose, by a majority of those present, one person, a resident of the county, who shall be the member of the board of education for said county, and shall hold his office until a successor is duly chosen and qualified. The county meetings aforesaid shall be organized by the choice of a chairman and clerk, who shall severally certify the election of the member chosen, and transmit one copy of such certificate to the Secretary of State, and one copy to the person chosen."

Among the duties of the [illegible] at their next meeting, will be that of electing a member of the Board of Education, for Penobscot County, and also to take into consideration the subject of text books to be used in the schools of the county.

It is expected that Mr. Crosby, Secretary of the Board of Education, will be present at the meeting. It is desirable that all the towns in the county be represented.

☞ The editor of the Bath Tribune talks about his table being an unseemly affair "dirt crid and bedaubed as it is with paste and other et ceteras." Ugh! that is altogether too bad! An editor's table—the editor of a Daily paper—thus described, and by himself too. It isn't a fitting table—it is entirely absurd—the elder man of the Tribune should know better, and if he does not, some one should teach him.

Let us advise thee, friend. Give this table up to the paste—and the boys. Get thee a desk with a row of drawers reaching to the floor upon thy right hand, and another row upon thy left—while between them thou shalt find room for thy legs. Let the drawers be long, but not wide. Into one, thou canst put thy exchange papers, into another thy selected matter—in another thy communications—in another thy unfinished articles—in another thy pamphlets and in another thy letters, papers and what thou choosest, while within the desk thou canst find room for a lot of scribbling paper of all sorts. When it pleaseth thee thou canst shut all up and lock it tight. There, thou hast now a pattern, and that no paste may defile it, cover the top with a good piece of cloth.

Now we beg of thee brother to get thee such a desk and thou wilt enjoy it—thou wilt.

☞ There will soon be a rapid communication opened between England and India. Lieut. Waghorn, who has had a long time engaged in conducting expresses to and from Eng. and the East, has obtained a charter for a company to open the route.

It is by the way of Egypt, Ceylon, Singapore, Batavia, Port Essington, in Torres Straits, and thence by Wednesday Island to Sydney. It is calculated that Sydney will then be brought certainly within 60 or 65 days, and probably within 60 days of London, and within 30 of India.

☞ The season here has not been considered very favorable for the production of the plum, although some of our friends have had abundant and finely grown crops. Horace Hill, Esq. at his beautiful gardens on Court street has been quite successful, and his specimens of the Jefferson, Washington, the Green and Imperial Gages, and the Magnum Bonum Plums should encourage the cultivation of these plums, in larger quantities in this city. We cannot succeed here, certainly not, generally, in the cultivation of the peach, but the plum can be raised here in perfection and those fond of a rare, [illegible] quality but little, if any, inferior to the peach. It is something to be well understood by a portion of our people and they have provided themselves with trees of the best kind, but there are still a great many who have land and no trees, and we trust that the success of Mr Hill and others of raising delicious plums will encourage them to procure trees and in a short time have rich fruit of their own.

☞ An educated gentleman, a foreigner, who has been unfortunate in business and who has sought our country for his future home, is now in this city, and would be glad to get employment in copying or other writing, posting books, adjusting accounts or any business in which he can make himself serviceable. He is well recommended and will no doubt be successful in his effort to be useful. We should be glad for him to find employment in any way, and shall cheerfully introduce him to any one in need of his services.

☞ We have recently tested the virtues of a portion of the assorting of Teas, offered for sale in this city by G. W. Ladd, Agent of the Canton Tea Company. The fragrance and flavor are so excellent that I cannot fail to give a delightful titillation to the palate of the most accomplished tea drinker, and to inspire all with its gently stimulating glow.

☞ Jack Frost made a heavy entry into our city on Thursday night, killing some of the tender vines and flowers.

Those who have green tomatoes upon the vines should immediately pick them and spread them in the barn or house, and the most of them will ripen, or the vines may be pulled and hung up in the barn and the fruit will ripen with very little trouble.

☞ The Portland Tribune states that the Atlantic & St Lawrence Railroad is now under contract from Portland to the point between the villages of Norway and South Paris and is to be finished without needless delay—Early in 1849, the Engine is expected to be drawing its trains back and forth for a distance of 50 miles. That time will soon be present.

☞ We have received a copy of a monthly periodical, published by Messrs Crosby & Nichols, entitled "The Hyacinth, a Pleasant Companion for Spare Hours." It is illustrated with woodcuts, is designed for children and youth, and the price is one dollar a year.

☞ The Dry Goods dealers are replenishing their stocks and now offer large and elegant assortments which can not fail to suit, both in quality and price. See our advertising columns for particulars.

☞ The Maine Farmer recommends to those who would destroy mice and rats to take equal quantities of powdered oatmeal and unslacked lime, mix them thoroughly without moistening and put a small quantity in holes and places infested by the animals. They will leave.

☞ The New Church association (Swedenborgian) will hold religious worship at the High School Room to-morrow afternoon.

☞ Gen Caleb Cushing has been nominated as the Locofoco candidate for Governor of Massachusetts.

☞ The Kenduskeag Cattle Show will take place [illegible] on the 13th and 14th days of October next.

☞ Mr Vattemare has already received the two thousand volumes as a return exchange for which he brought over from France.

☞ Rev. Thomas Stone of Salem, formerly of M[illegible] will preach during the day time or evening at the Union Street Church.

☞ Jack Frost was cutting up his [illegible] last night.

Remarkable Cave in Vermont.

A correspondent of the Boston Chronotype, writing from Ely, Vt., gives the following description:

"We visited a cave located in a gulf of the Green Mountains, famous in that vicinity as the 'Cogniac' (Cogniac being the term used here to designate counterfeiters) and though I have visited most of the remarkable caves in New England, I have been [illegible] It is composed of two compartments, the outer one being, in the form of an ellipse, 34 by 27, and 16 feet in height. The second compartment is somewhat smaller than the first and more irregular in form and has also [illegible] the grandest hall that ever I beheld and is circular in form, the diameter at which is 40 feet, is surmounted by a magnificent dome, the extreme height of which apparently exceeds [illegible] of the floor. The walls are composed of [illegible] and the height of [illegible] thousand holes [illegible] could not have been improved by art. In all cases, the [illegible] carried on his illegal [illegible] it on for many years. The [illegible] had a good eye for the beautiful—there is no denying that!"

Fatal Accident.

A young man named Michael Burns, engaged in one of the mills at Milltown, was killed through the carelessness of one of his fellow workmen. He was amongst the machinery to clear away the rubbish from about the buckets which retarded the operation of the machinery. He requested a person to watch whilst he was below, and allow no one to hoist the gate. Instead of doing this, he went away, and whilst he was gone two individuals who were engaged in sawing laths which was put in operation by the same power hoisted the gate, and sawed a number of laths, not knowing Burns was below, before the person left to watch returned. He asked for Burns which he named upon the mill. He was told they had not seen him. He told them to stop the machine, which they did, and Burns was taken up horribly bruised. He died about twenty-four hours afterwards.—Calais Journal.

Preparing for Transplanting Trees.

The fall season for transplanting trees is near upon us. We hope it will be improved, and that what is done will be well done. It is a very good plan to dig the holes before hand.—After having determined where your trees are to be placed, you can employ a leisure hour in digging the holes where to set them, and as you will not have the tree by your side, with its roots drying and causing you to be in a hurry to bury them, you will probably dig larger and do it more [illegible]—Maine Farmer.

Friendship.

Friendship has become a term of late, that when you meet with two real disinterested friends, you are led to suppose that one [illegible] and that the parties used [illegible] each [illegible] for the other's welfare, [illegible]

[Portland Tribune.

To the Editors of the Whig and Courier:

The following article on Trees, taken from the Boston Daily Advertiser, contains much useful information, and some valuable hints, which it would be well for our city authorities to notice. I should recommend our street commissioner to apply the plough and scraper to the embankments which cover the roots of our Elms, on some of our public streets.

Trees.

In the Daily Advertiser of Aug. 26, 1835, an article was published of which the following is an extract:

"The Elm trees on the upper mall and Park st. are from fifteen to forty years old. The roots of these trees spread horizontally a few inches only under the surface of the ground. Nature no doubt designed this in order that the heat of the sun should evaporate extra moisture and give rapid circulation to the sap which is to invigorate the trees. In the embankment which is now made, the roots of some of the trees, which have been heretofore near the surface, are now buried from two to three feet below it, and the water which is intended to be collected in the receptacle at the foot of each tree, will from want of evaporation cause the roots to rot and the tree to die."

The fulfilment of this prediction though delayed is in process of accomplishment. One tree near Walnut street is dead, and others show signs of decay in the extremities.

The article of which the extract was taken, was written before the authorities saw fit to raise the lower mall with rubbish, coal ashes, gravel, &c., which in combination form a hard pan almost impervious to water, and covering the roots of the trees from two to four feet, in consequence of which many of them are dead and others are in a rapid decay.

The drain or conduit which has been recently dug from Park street to West street, to convey water to the roots, as it is said, is calculated to accelerate the evil rather than remedy it. The best remedy, and probably the only efficient one, to save the trees that are not already too far gone, will be, two good yokes of oxen and a plough, well manned, to break up the hard pan, and plenty of carts to remove it, taking care not to injure the roots, and when these are sufficiently exposed let them be covered with rich mould about two or three inches deep.

Mr Emerson in his excellent report on the Trees of Massachusetts, says, page 289, speaking of the Elm:—

"It grows too with great rapidity, for its roots run just beneath the surface to a great distance, and thus get the best of the soil."

Another error is committed in setting out the young elms too near each other. The roots of the tree extend underground, as far as the branches do above, and it has been overlooked that though a young tree requires little room, an old one requires a good deal, and the young tree should be set out with the expectation that it will grow old. A proper distance for the American elm I consider to be fifty feet, which will give room for the roots to extend themselves, and if two rows are to be planted on a path ten or fifteen feet wide, do not for the sake of symmetry, place the trees opposite each other at that reduced distance, but put them opposite the spaces between those on the other side.

The [illegible] trees on Tremont street, suffer from having been originally placed too near together.—Mr Paddock, who set out these trees, told our late worthy fellow citizen, Gen. W. Brimmer, Esq., who met with him in London, that he imported the trees from Europe, and placed them so near each other, with a view to cutting down every other one as it attained a sufficient size, to be used in his occupation as a wheelwright, being supposed better than the native elm for his purposes. He exposed the trees at auction and went to England at the commencement of the revolution, from whence he never returned.

The only means to preserve any of those trees, would be I conceive to cut down every other one, but I fear they are too far gone even for this remedy. Their loss will not be much regretted" as they are a great obstruction to the much frequented sidewalk.

Generally on the Malls and on the Common, the trees are too near each other, and they would thrive better should every other one be eradicated. I have seen with pleasure a proposition made in the Common Council to appoint a person to have the special care of the trees on the Common and other parts of the city.

An officer of this kind is much wanted, for we have been too long under the influence of foreigners who with a smattering of Horticulture pretend to understand the management of American forest trees.

The superintendent of trees should have as absolute power vested in him as can be given, and the office should be as permanent as possible, so as not to subject him to the caprice of an ephemeral administration. The duties of the office will not be laborious, and a gentleman of competent abilities might be induced to accept of it for a small compensation. I should think that the author of the report on the trees of Massachusetts, before mentioned, would be the most eligible man among us for the office.

The Lost Child Found.

It will be recollected by many of our readers that an advertisement appeared in the Argus a few months since, signed by James Wilbur, of Bethel, advertising for his lost child. Mr Wilbur resided at the time of losing his son, near Sandy River Pond, in Franklin county. He has since moved to Bethel, because the sight of the place where the child wandered was so painful to his wife, that after his loss, she could not reside there longer.

The facts of the case were, that, in 1827, twenty years ago, the child, a boy two years and ten months old, went out one day to meet the other children, and never returned. Streams were dragged, but the child they never saw again. The neighbors turned out and spent days and nights in fruitless search. Universal sympathy prevailed. But at last they wearied, returned to their avocations, and newer wonders crowded it from their minds. Not so, however, with the parents. The father wandered up and down the earth, wherever he heard of a strange child, or the rumor of one being found. The mother wept for the lost one, and would not be comforted. Notices were issued, and everybody that heard the tale pitied the parents, and each did all he could to relieve their distress. But it was all in vain. The child was lost, and no clue could be found to its recovery. Whether he had fallen a prey to the wild beast or the Indian, or had wasted to death by starvation, who could tell? The horrid phantom of such a death was ever before their eyes.

Some thought that an old hunter by the name of Robbins, had stolen the child. He had been around the time, lurking about the premises. He was an old offender, had been tried for petty thefts, and was afterwards imprisoned for the murder of Hinds and son, in 1829, but made his escape. But no evidence or confession could be got from him, and the matter faded away with the lapse of years from the memory of man.

The parents, however, persevered. They could not forget, and again issued their advertisement calling for information of their lost child.

A week or two since, two of Mr Wilbur's daughters, at work in the Saco Factories, saw, among a body of Indians encamped there, a white young man, in whom they thought they recognized a resemblance to their family. They accosted him, and soon claimed him as a brother. Of course he had no knowledge of them, but wished to see their father. They sent for the old gentleman, and the recognition on his part was complete. The young man, now 23 years old, had been told many stories of his parents, but kept nothing certain of his abduction. The lad and [illegible] are now encamped at Cape Elizabeth, opposite this city, with the youth and his wife,—for he married an Indian girl last spring.

He has promised his father he will go with him to Bethel, where the old gentleman intends to build him a house, and give him all the [illegible] he wants to roam about in the woods, in consonance with the habits of [illegible] The father came into our office on Thursday, to tell us of his success. He was as happy as a boy just let out of school.

The mother has not yet seen him. From her intense and lasting affection, [illegible] through long years of [illegible] the meeting will be one worthy the [illegible] of a Hogarth.—Zion's Advocate.

BY THE LAST MAIL.

No Peace Yet.

Washington, Sept. 20, 1847.

While we are all expecting Peace, the War Department is all mustering men and means for the prosecution of hostilities. Mr Marcy seems to have no faith in the armistice as preliminary to a treaty. He regards it, or appears to regard it, as a stratagem of Santa Anna, which will terminate in the escape of the Mexican Army from the capital.

As affording some indication of the opinion of the Secretary of War, he has ordered all the troops in the States on hand for service, to be got ready instanter for the seat of War, and that the new companies L. and M. of the four regiments regular artillery, shall be ready by 1st of October for transportation to Mexico.

The purpose is either to hold Mexico in occupation, treaty or no treaty, or to be in readiness for the worst that can be apprehended from the armistice.

We learn that the President proposes to appoint Gen. Wm. Gibbs McNeill, of New York, Brigadier General of the Volunteers, in place of Gen. Hopping, of New York, deceased.—Cor. N. Y. Herald.

How the Armistice came about.

The Vera Cruz correspondent of *La Patria* gives the following account of the way in which Gen. Scott came to ask an armistice of Santa Anna.—We translate from *La Patria* of the 12th inst.:

Hardly had the battle of Churubusco terminated and hardly had Valencia disappeared from among the band of heroes, when five or six persons, notorious for their friendship for Santa Anna and their inclination to peace, sallied from the city of Mexico. Among these Senor Arrangoiz, formerly Mexican Consul at New Orleans, and Mr McKintosh, Acting Consul General of Great Britain in the Capital. All these persons went, under a flag of truce, to visit Gen Scott and after a conversation of some hours, returned to the Capital. The next day there arrived a messenger from the American General, bearing the proposition dated at Coyoacan on the morning of the 21st ult. A few hours after, this proposal was answered favorably, and on the next day at Tacubaya the ridiculous and absurd armistice was executed.

All might have remained unknown if Santa Anna had not been in such a hurry to publish his extraordinary Manifesto on the morning of the 23d. In this document he throws off the mask of hypocrisy and shows clearly that he had a previous understanding with the enemy and that he was decided to enter into negotiations at any risk. A gentleman who arrived yesterday in company with Senor Bermudez de Castro, Minister of Spain to this Republic assured me that the persons who visited the American camp at the termination of the action of Churubusco, did so on an understanding with Santa Anna.

They represented to Gen Scott that the Provisional President was anxious and disposed to enter into negotiations for peace but that his situation hindered him from taking the first step on account of the opposition of the people, but that if Gen Scott would propose an armistice under the conditions which were adopted, he would enter into negotiations with Mr. Trist, and that he (Santa Anna) was confident that he could put an end to the difficulties. This, then is what obliged Gen Scott to take the first step in the matter, when he was able to enter the Capital with his army. We cannot see how the negotiations will terminate, since we see that six days have already passed since the suspension of hostilities, without anything being decided.—[N. Y. Tribune.

Dyspepsia.—This distressing complaint is a weakness of the digestive organs, and like every other disease, is caused by impurity of the blood. The gastric juice, a fluid peculiar to the stomach, when secreted from bad blood, is deficient in those wonderful solvent properties which are of such vital importance to the digestion.—Consequently, the food, instead of being speedily dissolved, often becomes absolutely spoiled or putrified in the stomach, hence bad breath, sour belching, costiveness, pains in the stomach, colic, dysentery, cholera morbus, and other dreadful complaints.

Wright's Indian Vegetable Pills, are a certain cure for Dyspepsia, because they cleanse the stomach and bowels from all bilious humors, and purify the blood. Four or five of said Pills, taken at night on going to bed, will in all cases give some relief, and if continued for a short time, will not only make a perfect cure of Dyspepsia, but will assuredly drive pain or distress of every description from the body.

Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

Joy to the Afflicted!

DR. SEARS'S justly celebrated GOOD SAMARITAN or PAIN-CURER—for external and internal use!

THE proprietor has been in the habit of dealing out medicines for the last eighteen years, almost daily, and he thinks he has been a close observer of their action on the human system, and he finds his Pain Curer to be unsurpassed for the cure of pain either externally or internally.— As such he offers it to an impartial and enlightened public—and he only asks for it that meed of praise to which the afflicted shall find it entitled.

This purely vegetable medicine, manufactured by the proprietor Dr J B Sears, is offered at wholesale or retail, by G F SARGENT, No. 22 West Market Place, and SILAS ALDEN, No 21 Main street (under the Hatch House), only agents for Bangor. 1m sept 23

TEAS.

Bangor Agency of the New York Canton Tea Company.

The Oldest Tea Establishment in America.

Principal Establishment in New York.

THE CANTON TEA COMPANY has been popularly known for many years. This is the largest and oldest Tea Establishment in America. The public have had proof of their integrity and responsibility. But so great is the pressing demand for their Teas that they have been obliged to enlarge, to a great extent, their two principal establishments in New York.

They most seriously invite the attention of the people of Bangor to their Agency, where the following assortments are always on hand, and they feel no hesitation in stating that wherever a single trial is made, a decided preference is given to the celebrated Teas of the CANTON TEA CO.

Mutual Benefit Life Insurance COMPANY.

—OFFICE No. 9 GRANITE BLOCK.—
EAST MARKET SQUARE — *BANGOR.*

THE affairs of this Company are in the hands of business men favorably known to the community, who have permission to refer to the following gentlemen in Boston:

Hon. J. G. Rogers; Sam'l A. Appleton, Esq.;
Hon. S. Fairbanks; Messrs J. H. Thayer & Bro.;
Robt. G. Shaw, Esq.; Johnson Sewall & Co.;
and to the following Gentlemen in Bangor:
Hon. Edward Kent, Charles Hayward,
Frank'n Hobbs, Esq., Isaac Bryant,
James Crosby, Geo. S. P. Sutherland,

This Company offers the following advantages:—

1st, When the premium is over fifty dollars annually, one fourth may be paid in cash, and three fourths in a secured note, at twelve months, with six per cent interest, or it may be paid in full yearly, quarterly, or monthly.

2d, Parties taking life policies, and paying *fifty per cent.* of premium in cash, and those taking policies for a short period, and paying [illegible] *per cent. in cash,* (if over fifty dollars premium) may give their individual notes for the balance, if satisfactory to the officers.

Whole number of policies issued in 24 months, to the 1st of May, 1847, 1519.

Whole amount of policies insured, $351,990 98.

Dividend of profits, May 1847, 35 per cent.

This Company has now been two years in operation, and it is a gratifying circumstance, that its progress has fully tested the principles adopted for its management, and thus far more than realized the most sanguine expectations of its friends.

Its remarkable amount of business, which is without a parallel in the history of Life Insurance, shows that it is gaining in public confidence, and that there is an increased disposition in the community to avail of its beneficial operations.

Stone, and are prepared to manufacture in the best style those superior LUMBERMEN'S BOOTS which have heretofore given so high satisfaction and which are every where pronounced altogether the best Boots on the River.

They are prepared to execute all kinds of custom work from excellent stock, and in good style in order to suit all tastes, and to keep plump up with the fashion of the day, they have recently purchased of the best manufacturers in the country, a fine assortment of

Ladies' and Misses' Boots and Shoes,

all of which they will sell uncommonly low *for the cash.*

They intend by strict attention to business, faithful workmanship, and a regard to the wants of their customers, to deserve success; and they invite the public, and particularly the customers of the late firm of D & T Stone, to give them a fair trial.

BOLTING CLOTHS

OF all Nos. for sale at Boston and New York prices, by JENNESS & DEARBORN.

To the Public.

IMPORTANT MEDICAL NOTICE.

DR. PETERS has REMOVED from Endicott street to No. 19 Watson's Lane, BOSTON, a few steps from Dock Square—where he can be consulted in all cases of Diseases of a delicate nature. Dr. Peters has been in practice in Boston for the last seven years, and is now acknowledged to be the most experienced physician now advertised for the cure of certain maladies. His cures are innumerable— his knowledge of delicate diseases unbounded, he spares no pains or expense to relieve those who honor him with their confidence.

In Scrofula,

his [illegible] eye, at once, discovers the date and cause of the evil, without first experimenting to ascertain the location of the disease, as do Quacks and Nostrum venders. He performs the difficulty at once, and applies the right remedy.

In Chronic Affections

of the Bladder, he is always sure of performing a perfect cure—having a perfect knowledge of the organ affected, and the proper medicine to be applied.

In Gonorrhea,

a single glance enables him to ascertain the precise state of the disease, and to apply the most [illegible] remedies to the particular parts, and the complaint will disappear in a short time after the application, never to appear again.

In Syphilis,

his medicines stand in the foremost class of the medical world—removing the disease from the system, no matter of how long standing it may be.

Also, the following diseases come under the special care of Dr. Peters—viz: King's Evil—Salt Rheum—Tetter— Cutaneous Affections—Seminal Weakness—Nocturnal Emissions, produced by secret bad habits when young, &c &c.

To Females,

Dr. Peters would say that he has a perfect knowledge of their systems, and can warrant them a perfect relief from all complaints peculiar to their sex. The following are a part of the complaints which come under his particular notice—viz: Suppression—Irregularities of the Menses— Whites—Pains in the Back and Sides—Falling of the Womb—Green Sickness, &c. &c.

N. B. Persons at a distance can consult Dr. Peters by letter, post paid, describing their complaints, and enclosing a remittance. Direct "Dr. Peters, 3 Watson's Lane, Boston, Mass." Medicines can be sent by Express to all parts of the United States and the Canadas.

To Seamen,

Dr. Peters would say that his medicines can be taken at sea, and are peculiarly fitted for their use, being concentrated into a portable and compact form. If those who [illegible] about taking medical advice, will call upon Dr. Peters he will give them ample proof of his ability to effect a perfect cure, however protracted their case may be.

DEAFNESS CAN BE CURED!

COOPER'S EAR OIL—a prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness.

Persons who have been deaf for 10, 15 and [illegible] years, have been permanently cured by using the Oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the Inventor claims [illegible] the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

For further particulars, and evidence of its great value, see printed sheets in the hands of Agents.

FOR
COLDS, COUGHS, ASTHMA and CONSUMPTION.

The [illegible] celebrated and INFALLIBLE remedy for [illegible] PULMONARY CONSUMPTION, is the HUNGARIAN BALSAM of LIFE, discovered by Dr. Buchan, of London, England, tested for upwards of seven years in Great Britain and on the Continent of Europe, and introduced into the United States under the immediate superintendence of the inventor.

The astonishing success of the Hungarian Balsam, in the cure of every form of CONSUMPTION, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found [illegible]

TO THE CONSUMPTIVE.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of colds, coughs, spitting of blood, pain in the side and chest, irritation and soreness of the lungs, bronchitis, difficulty of breathing, hectic fever, night sweats, [illegible] asthma, influenza, hooping cough, and croup.

In cases of seated disease of the lungs, or seated Consumption, it is the ONLY SOURCE OF HOPE.

RUST PROOF IRON,

FOR
ROOFING, WINDOW SHUTTERS &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metals and other materials. [illegible] for this purpose, possessing as they do the strength and lightness of iron without its liability to rust, having now stood [illegible] years both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere than common Tin Plate, Iron, Zinc &c., or any other metal now used for roofing, and those [illegible] better and tighter too, requiring less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metal, to the many other purposes to which Iron thus protected can be applied. In general terms it is applicable to all articles of [illegible] which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe) constantly on hand from 16 to 32 wire gage.

KELLEY & CO.'S SARSAPARILLA!

FOR SCROFULA, DYSPEPSIA
JAUNDICE, LIVER COMPLAINT
COSTIVENESS, HUMORS, RHEUMATISM

THIS valuable medicine is used FOUR times as much as any other. [illegible] This is because that not only PHYSICIANS, but the public know it by experience, to be FAR the BEST, and therefore give it their decided preference to any other preparation, or kind of Sarsaparilla.

Kelley & Co.'s Sarsaparilla, is so strong and so certain to do good, but more than all, is known to have performed so many astonishing cures of DYSPEPSIA—of SCROFULA, and of every kind of RUN DOWN CONSTITUTION that it [illegible] of every opposition which self interest of malice could devise, won its way to the favor of PHYSICIANS and the public in SIX STATES of the UNION, in a very short time.

Try it. Try it! and not the frequent disappointments which you meet with in the use of other articles, deprive you of the ALL HEALING, and HEALTH-RESTORING power of this MEDICINE!

THIS No embraces an unusual number of able and interesting articles. Received by the subscribers, who are the Bangor Agents for the work. G R SMITH & CO [illegible]

THE GRAEFENBERG PILLS.

THERE are two most conclusive reasons why that class of Medicines denominated 'PATENT,' should be made the means of incalculable and enduring blessings to the human family.—Suppose, for example, that a high order of talent, long and extensive observation, and great medical learning and experience, are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason; and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man. Twenty-five years devoted to any one subject will give a man of ability the mastery over it. This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science.

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULLNESS OF TIME. The mariner's compass, for instance, was not invented until in the 'fullness of time' it was needed. The loadstone always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew nigh when distant continents and islands were to be unveiled. Behold it now transferred to the binnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, in the most [illegible] daring within sight of familiar landmarks!

So with the discovery of the New World, upon whose shores was to arise this Great Nation to a power, a glory, a mission far beyond the conception of the wildest fancy. The Old World had reached its highest [illegible] the 'fullness of time' drew near for the revelation of the New, and behold the immortal Columbus, from the [illegible] of his dreamland and leaky vessel found it! So with the invention of printing, of steam, of the magnetic telegraph. Each of these had its own 'fullness of time,' [illegible] distinct and Providential.

☞IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most beautiful are the illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensations down to the present hour—all of them teaching us the lesson and giving us the hope that something yet better to heal human maladies is at hand.

That the great [illegible] is [illegible] of Medical [illegible] Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it.—The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are an [illegible]

THE GREAT REMEDIAL TRIUMPH

The Inventor of these Pills rests his theory upon no school nor degree of ordinary medical teaching. Planting himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

'THE BLOOD IS THE LIFE,'

he reasons that health [illegible] his patients make pure the life current that leaps through their veins and arteries, before they can hope for a PERMANENT CURE. He [illegible] and so can others, but bright and joyous health must come from a pure blood.

But a most sad thought here comes in! So countless are the impositions which are practiced upon the public by pretenders, and so numerous and boastful are the medicines advertised, that the reader may be slow to believe in this Great Remedy. A word, therefore, on this point.

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, that paper will convince you. Thousands have been convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, eminent physicians, divines. The bare enumeration of their names would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS. It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days.

A thousand things press upon the minds of the advertisers which they would rejoice to say to the reader, but the limits of this advertisement forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED!

Asthma,
Bilious Complaints,

In all bilious [illegible] disorders, these Pills achieve the most wonderful triumph. [illegible] And as the susceptibility of the American constitution to these diseases, they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES, CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW HEALTHILY AND CLEAR, AND TO GIVE TONE AND STRENGTH TO THE SYSTEM.

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. [illegible], which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physician, Jurist, Clergyman, and private citizen, male and female.

☞Numerous Certificates of the wonderful efficacy of these Pills might be inserted, but a certificate in these days is scarcely worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given.

FROM INDIANA.

"Your enterprise is the enterprise of the day. Its magnitude will astonish its originators. It is destined to effect a complete revolution in the medical world."

FROM A JUSTICE OF THE PEACE IN WESTERN N. YORK.

"I have sold a number of boxes to the citizens of this place. They have given entire satisfaction, and they are destined to become the most popular Pill of the day!"

FROM TOLEDO OHIO.

"Having heard so much, and witnessed two or three cases treated in the mode directed by your Journal, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this [illegible] than by the old mode. I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON—
Gentlemen,

I cannot refrain from troubling you with a few lines, to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from constipation, which has deranged my whole system, and I have not known a day's good health for [illegible] years past, and being an old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills, which I did, although without any confidence; the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is entirely removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ——, OF GEORGIA.

Sirs,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them. I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures."

FROM AN EPISCOPAL BISHOP.

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and, with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them, from the philosophical manner in which you have reasoned on the subject and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect would be arrived at. My complaint has been that of the Liver, from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to resume, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude, I am, &c.

From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts. ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.

WHOLESALE WAREHOUSE,
49 John Street, New York.

☞In towns where there is no branch, the Company will appoint agents on application by letter, (post paid) or otherwise.

JULES HAUEL'S PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right—A proper Principle adopted.

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded.—Remember, there is no quackery,—no humbug,—here. A trial will cost you nothing,—so if any one is humbugged, it will be myself! With the utmost confidence I recommend to the particular attention of the public the following articles. First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from scurf and dandruff, and its effect in the restoration and growth of the hair is unequalled by any other preparation of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP,

Composed of an Eastern Botanical Discovery of Surpassing Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion.

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful; it removes all harshness, clears the complexion, and leaves a delicate roseate hue that cannot be surpassed. Third—

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream."

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not smart or irritate the skin, on the contrary, it is very soft and highly emollient. No person will use any other, after once using this admired preparation. Fourth—

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect. Its composition is infallible, and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on the sides of the face, arms, &c., giving a masculine turn to the features, and who testify of its happy effect. Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE,

A Chemical Result to enable persons to dye their hair instantaneously without the least inconvenience.

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated Vegetable Liquid Hair Dye."

For changing red or grey hair, whiskers, eye brows, &c., to a brown, black, or chestnut color. The slightest evil consequence need not be feared from its use—it is altogether harmless. This composition is the only one anticipated by the science of chemistry, to dye, in an indelible manner, the various gradations of colors, without danger or inconvenience and has justified the liberal patronage and unlimited confidence of the public.

☞Beware of Counterfeits! Ask for "Jules Hauel's Vegetable Liquid Hair-Dye," if you want the genuine article. Sixth—

MY UNRIVALLED ROSE TOOTH PASTE,

Is universally sought after, for the pearly whiteness it gives to the teeth, without the slightest injury. Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States, and under the immediate patronage of the Ladies.

This powder is unequalled, for the nursery, for restoring, beautifying and preserving the complexion, rendering the skin delicately white, smooth and soft, preventing cutaneous eruptions, chapping, and obviates too copious perspiration. Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair Dye* is not the best,—the very best yet known in this country or in Europe.—This invaluable discovery will enable persons to dye instantaneously the hair or whiskers, in a few minutes, without the least inconvenience. This preparation is warranted not to wash out, nor to injure the cuticle of the hair, and gives all its softness and brilliancy.

From a celebrated Chemist of the City of Philadelphia.

"DEAR SIR:—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair Restorative.* I have been surprised by its wonderful and beneficial results, and have no hesitation in saying, that I believe it to be the most valuable and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair. In regard to the *Nymph Soap, Hair Dye, Rose Tooth Paste, Depilatory Powder,* and *Shaving Cream,* I must say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c.
JOHN FARR, Chemist,
President of the Manufacturers' and Mechanics' Bank, Philadelphia.
MR. JULES HAUEL."

Try it! Try it! It is furnished Gratis!

The most positive and convincing proof of the superiority of an article depends on the favorable estimation it has received from those who have used it.—With respect to my *Shaving Cream,* it is always used with satisfaction, and has everywhere met with universal approbation.

Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor, No 120 CHESTNUT Street, receive, without charge, a small box for trial, as I am determined to let all [illegible] judge for themselves.

Prepared and Sold, *Wholesale and Retail,* by
JULES HAUEL, Practical Chemist and Perfumer.

An Extract from the Report of the Judges of the "Franklin Institute of Pennsylvania."

"After a minute and careful examination of the preparations submitted to our notice by Jules Hauel, [illegible] Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them truly valuable preparations, well calculated for the toilet."

READ THE CERTIFICATE!

"The Franklin Institute, of the State of Pennsylvania, for the Promotion of the Mechanic Arts, have awarded to Jules Hauel, of Philadelphia, their Testimonial of their approbation to the skill and ingenuity displayed in the manufacture of his celebrated Eau Lustral Hair Restorative, and other perfumery, deposited at their late Exhibition of Domestic Manufactures in the city of Philadelphia.
(Signed) J. V. MERRICK, President.
J. SMITH LUKENS, THOS. FLETCHER, Vice Presidents.
J. B. GARRIGUES, Rec. Secretary."

From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family, and some of them personally, I have more than realized those favorable anticipations,—they are, what they profess to be, scientifically prepared and compounded. I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap* and, in fact, all the popular preparations of Mr. Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.
CONSTANT GUILLOU."

From DANIEL J. DESMOND, Esq., Attorney at Law, Late Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.

"To Mr. JULES HAUEL.

SIR—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to myself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skillfully prepared and compounded. I am convinced of the great worth and merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste.—I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the purpose they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and rich [illegible] composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable.

"I have seen some of my friends who have used your Vegetable Liquid Hair Dye, it is really a wonder. It dyes the Hair in an indelible manner, in a few minutes, and the color of the hair is really beautiful and none will detect the artificial colors, as it is not at all [illegible]. Yours &c.
DANIEL J. DESMOND.

Dr. Townsend's SARSAPARILLA.

The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease, it invigorates the body. It is one of the very best Spring and Summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years more than [illegible] cures of severe cases of disease; at least 5000 of these were considered incurable. More than

3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,

and thousands of cases of diseases of the blood, viz.—Ulcers, erysipelas, saltrheum, pimples on the face, &c., &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c., &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York, which we will refer to with pleasure and to men of character. It is the best medicine for the prevention of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season.

UNITED STATES OFFICER.

Capt. G. W. McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

RAHWAY, Jan. 2 1847.

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe that it saved my life, and would not be without it under any consideration. G. W. McLEAN.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend—Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation. Yours respectfully,
ISAAC W. CRAIN, 106 Wooster st.
New York, March 1, 1847.

Brooklyn, Jan 3, 1846.

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature, by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicine taken for female weakness and disease.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhea or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

Dr. Townsend—My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it, and recommending it to the public. M. D. MOORE
Albany, Aug. 17, 1847 Cor. Grand and Lydius sts.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market. H. P. PULING, M.D.
J. WILSON, M.D., R. B. BRIGGS, M.D.
P. E. ELMENDORF, M.D.
Albany, April 1, 1845.

The following is from one of the most respectable physicians on Long Island:—

Greenport, July 10, 1846.

Dr. Townsend—Dear Sir—It is with satisfaction that I say to you, that I have recently witnessed, in several cases, the most beneficial results from the use of your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, jaundice, &c., it far excels any thing of the kind ever before offered to the public. You will please send me two dozen, &c. &c. Respectfully yours,
S. C. PRESTON, M.D.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

☞Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him.

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY.
Hartford, March 12, 1845.

PILES! PILES!! PILES!!!

Dr. Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility. Read the following:—

Dr. Townsend—Dear Sir—The effects of your Sarsaparilla are truly wonderful. For the last six or eight years past, I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint, and have despaired of ever finding relief, except in death. I have the pleasure to inform you "there is yet a balm in Gilead." I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint. I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands.
Yours truly, JOHN HALL, 49 Fulton st.
July 5, 1846.

CAUTION!

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c. They generally put it up in the same shaped bottles, and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr. Townsend's, &c., hoping thereby to deceive the public. [illegible] to allow the use of their name, to which they put "Doctor," to give them respectability. The public should be on their guard, and look out for counterfeits.
